PROJECTS

1. SkillNest Academy: It is an online learning platform. Anyone can buy courses or teach courses. It took 4 days to complete the project. I have used React, Express, MongoDB and firebase.

- If anyone has a good knowledge about any then he can be a teacher in this website. But before that he needs to get admin's approval.

2. ShareWithHeart: It is a food sharing website. People can share their food with others. It took 3 days to complete this project. I have used React, ExpressJs, MongoDB and Firebase to build this website.

- If someone wants to donate food then he has to add food details in the website.
- Those who need food should make a request. The request will be confirmed when the donor approves.
